# Alexander Gomez

CyberTech Student | Arroyo Valley High School | CyberTech Pathway

gmzalex039@gmail.com | (909) 314-8758 | San Bernardino, California

## PROFILE

High school senior (Class of 2027, GPA 3.5+) with four years in the Tech Academy repairing and troubleshooting student Chromebooks, plus customer-facing food service experience in a high-volume cafeteria. Systematic on a repair bench, comfortable building GIS maps in ArcGIS Pro, and quick to pick up new tools.

## EXPERIENCE

### Tech Academy Intern

Arroyo Valley High School · San Bernardino, California | Four years · Current

- Diagnose and repair student Chromebooks, isolating faults across power, display, keyboard, charging and software issues.
- Perform screen, keyboard, battery and charging-port replacements, plus internal component swaps on an ESD-safe bench.
- Assist students and faculty with hardware and software setup, imaging and device handover.
- Log every device with its reported fault, repair applied and outcome for the department's service records.
- Coordinate with site technology staff on priorities, parts and handoffs during heavy intake periods.

### Cafeteria Assistant

Arroyo Valley High School · San Bernardino, California | Junior and senior year

- Prepared food items and organized serving stations for breakfast and lunch service.
- Served several hundred students a day during peak periods while keeping the line moving.
- Managed and restocked inventory, tracked supplies and maintained food safety standards.
- Kept the station clean and compliant under a certified food handler standard.

## EDUCATION

### Arroyo Valley High School

Tech Academy · San Bernardino, California | Class of 2027 · GPA 3.5+

- Four-year Tech Academy program: computer hardware and repair, networking basics, cybersecurity fundamentals, geospatial data and computer science fundamentals.

## CERTIFICATIONS & AWARDS

### Food Handler Certification

Food safety and preparation standards

### Academic Excellence Award

Recognized for high academic achievement and commitment

### Tech Academy Internship Recognition

Technical support, hardware repair and device troubleshooting

## PROJECTS

### GIS Disaster Response Project

Class project

- Built layered hazard, infrastructure and shelter maps from cleaned spreadsheet data to show response coverage.
- Presented the finished map and its findings to a non-technical audience.

### Coding & Tech Experiments

Ongoing

- Small scripting and automation exercises, electronics builds with breadboards and sensors, and defensive security practice labs.

## COMMUNITY SERVICE

### Event & School Support

10+ hours supporting school and community events

### Academic Tutoring

Tutored lower-level math students to improve comprehension and grades

### Tech Support

Helped classmates with device setup and software troubleshooting

## SKILLS

Repair & diagnostics: Component replacement · fault isolation · ESD-safe handling · device logging

Software & data: Scripting basics · command line · spreadsheet and CSV cleanup · GIS mapping

Working with people: Customer service · teamwork and handoffs · clear documentation · adaptable learner

Food service: Food prep and portioning · inventory and restocking · food safety · high-volume pace

## CAREER GOAL

Gain entry-level experience in retail, warehouse or tech support while training toward electrical work through trade school or an apprenticeship.

## TRAINING

- Tech Academy coursework — Arroyo Valley High School, four-year program (in progress)
